3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 41.37(c)(1)(iv)).
4. ☒ (a) The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number and to the drawings, if any, by reference characters; and/or (b) the brief fails to: (1) identify, for each independent claim involved in the appeal and for each dependent claim argued separately, every means plus function and step plus function under 35 U.S.C. 112, sixth paragraph, and/or (2) set forth the structure, material, or acts described in the specification as corresponding to each claimed function with reference to the specification by page and line number, and to the drawings, if any, by reference characters (37 CFR 41.37(c)(1)(v)).

Continuation of 10. Other (including any explanation in support of the above items):

It appears that the Summary of the claims is missing a concise explanation of the invention defined in ALL the claims involved in the appeal. This explanation is required to refer to the specification by page and line number, and, if there is a drawing, to the drawing by reference characters. The Summary is directed to various embodiments of the invention and not pointing to a specific claim (i.e.

Independent claim 1, step of "operating a directory service", or claim 21, "one or more directory service").

Detailed descriptions for claims 1, 4, 15, 19, and 21 with reference numbers, support in the specification, or drawings appear to be missing.

(i.e. in this case steps of every argued Independent claim appear to be missing, furthermore specification page No. and line No. and missing Figure No. when referring to character reference in that figure appear to be missing).
